March 12, 2020

Dear Parents,

A letter addressing the virus from Dr. Lockwood, Superintendent of Schools, was sent home via the Wednesday envelope. Teachers have reviewed good hand washing technique with students and signs are posted throughout the school. Daily sanitizing of surfaces and objects such as desks, chairs, doorknobs, tables, computer keyboards, bathrooms and other surfaces takes place.

As a faculty we are making plans to keep the learning going if the situation changes and schools close.

1. Google Classroom will be used for all students in grades 1-8 in order to have consistent platform for students and parents to receive and submit assignments.
2. Teachers have started writing lesson plans for 2-3 weeks ahead and will be creating packets for students that contain all materials necessary for these lessons. Depending on the class, if we have a supply of extra books that can be kept home for the duration, it will be sent with child.

Please make sure your Honeywell Instant Alert is updated since any closure school closure will be sent through Honeywell.

As this situation continues to evolve, please be assured that we will share information as it comes.

Your Partner in Catholic Education,

Mrs. Roseann Johnson, Principal
